

Mini - Letter for Winchester Grange #74

January 11, 2011 -- 1/11/11

Happy New Year and a hope most sincere for a good year ahead.

Happy 2011!

Welcome to Deputy Victor this evening. It should be interesting to hear his presentation for the School of Instruction. Wish I could be with you.

We were lucky about getting less snow than they thought we'd get. Let's continue with that and hope Tuesday night is nice. It has been a month since our last meeting and that's not good.

Thank you, Arline, for the refreshments tonight.

Trust everyone had a happy Christmas and you watched the New Year's Eve Ball drop.

Beadie Broggi is still here at Laurel Hill and so is Joe Mori. Beadie walks down for a visit fairly often.

The Annual Letter has started to return results, thank goodness. As of this newsletter we have had dues from 28 members, (5 Golden Sheaf), 4 Pomona members and one donation - not bad for a short time.

Matthew Kline is home from the hospital and doing well. Talked with his mother on Sunday - guess they were pretty scared but all is well, now.

Caroline Monroe is having eye surgery on February 3 and they anticipate it will be successful. Sure hope so!

Sister Sue had a good time in California but I bet she is not planning to move there! Connecticut still looks good. They had more rainy days while she was there. As a matter of fact the whole Pacific Coast has had a great amount of rain. My brother in Oregon has said they've had unusually rainy weather, too.

I talked with my sister, Barbara, in South Carolina this morning and she told me the state was closed down because of snow. No banks open - no businesses...what a mess! Said Georgia, Alabama, North & South Carolina all included. People are not prepared and they don't know how to drive or cope with winter weather. Watch out - it is headed this way!

Guess this is it for this meeting - now
