

CERTAINLY doesn't seem possible that February is nearly gone, and it really hasn't been too bad. Let's hope March is as easy to take.

TONIGHT'S PROGRAM sounds interesting ... "Into the Archives." is a good title. The New England Archives house a great deal of the history of the CT State Grange, as well as our own.

MANY THANKS to Judy, Sharon and Ray for tonight's refreshments. We understand that Bob can't help it...he has to work at night, and that's a real good excuse! Bet he'd rather be here!

NEXT MEETING - March 11 - and it will be a Neighbors' Night, with a Country Store. Terri will fill us in on details, I'm sure. Refreshments by Torchy and Sara, Pam and John Prevuznak.

JUNIOR GRANGERS met last Friday for their postponed meeting, and it was their School of Instruction with Junior Deputy Phyllis Bierce. Then on Saturday they had a workshop, and I'm sure Sue will tell you about that.

CORNERED BEEF AND CABBAGE/OR CHICKEN...MARCH 9 - be sure to remind people to make their reservations early. This one is usually a sell-out, and we hate to have disappointed people.

Our sympathy is extended to Mary Daniels on the loss of her husband, Dick. Both Dick and Mary were members of Winchester when they lived in this area. Mary is the sister of Ruth Goodenough. Speaking of Ruth makes me think of Greg - he is working nights at the present time which is why he has been "among the missing" and is afraid it may continue. We miss him.

NEWS FROM NOTES which I've been receiving:
Charlie and Mary Anne Nash went

on safari to Kenya recently, said it was a wonderful and unforgettable experience. Mary Anne also Sister Olive Goddard (her mother) fell and broke her wrist, but it is healing well and she is loving the attention!

Said they all miss Winchester but not enough to move back.

Note this morning from Caroline Monroe - said Edna is fairly well now, but had a narrow escape from pneumonia over the holidays. Sue stays with her in the daytime, and Caroline has the "night shift". Also said that her mother loves the cards and notes from the grangers - keeps them on the table where she can read and reread them.

Charmion is very bad - she is not up at all now, and her body seems to be rejecting food and liquids. Her sister, Sarah Perry, a retired Army Nurse, is with them, which helps Ernie a great deal. Been a long and heartbreaking time for all of them.

Dues are coming in very well which is really appreciated so much. Only 17 more to pay Pomona dues, which is great too.

Florence Simons is home from the hospital, recuperating from her last sojourn "up on the hill". Hope she can build up some strength now and stay well.

NEXT POMONA MEETING will be our day meeting at Riverton on March 26, starting at 10:30. Good chance we might bring home the banner again?

We hear, via the grapevine, that Karen and Peter Papp may be moving to Virginia or South or North Carolina....how can they do that to us! At least they will be closer to Terry and her family.

The end of the page...nothing more to tell you. That's it.
